EXPERIENCE

UX/UI Designer

2022 – Present

Comarch

- Design SaaS loyalty and e-commerce products across desktop and mobile — from research and flows to production hand-off
- Lead WCAG and UX writing audits; translate findings into shippable design improvements
- Evolve the component library for AI-friendly structure, tokens, and design-system use
- Drive AI workflow integration across prototyping, documentation, and cross-functional delivery

KEY ACHIEVEMENTS

- Enhanced product functionality in a new upgraded version for desktop and mobile platforms
- Restructured the component library for AI-ready naming, tokens, and hand-off — adopted org-wide
- Led WCAG audits across key product surfaces and embedded accessibility checks into the design pipeline

UX/UI Designer

2025 – Present

Freelance

- Led ERP platform redesign for Enoterra: discovery workshops, flow audits, WCAG review, and user testing — operational dashboard, AI assistant, and command palette in production
- Built AI-assisted functional prototypes to validate interactions and assistant logic with the client team before development
- Designed Local Run Club App: athlete-led community research, loyalty-driven mobile UX, and interactive prototype

UX/UI Designer Trainee

2021 – 2022

iTechArt Group

- Led qualitative research for a real estate marketplace product
- Designed core interfaces and delivered an interactive Minimum Viable Product (MVP) prototype
- Presented final solutions through a clickable prototype to stakeholders
- Drove design system improvements for cross-functional hand-off

KEY ACHIEVEMENTS

- Conducted market research and defined the design direction for a real estate buying/selling platform
- Built a Figma design system adopted by cross-functional teams across the organization
- Delivered prototype and MVP presentation that became reference templates for client demos
